Loot from The Fair is Found by Police

Patrolman Frank Rooney, caught four Mexicans loaded down with plunder which they had stolen at an early hour yesterday from the Fair Store owned by Sam Adler, at 1119 Farnam street. Over \$500 worth of the stolen property was recovered by Rooney and the robbers sent to jail.

The store was broken into about 2 o'clock. The glass in the front door was kicked in and the burglars entered and stole 54 rugs, valued at \$1 each; fifty-six gold chains, valued at \$1 each; fifty pairs trousers, worth \$1 each; thirty-eight shirts, worth \$1 each; several willow umbrellas, opera glasses and field glasses. The value of the entire stolen property was placed at \$1,500 by Sam Adler.

Officer Rooney, was looking for a colored woman in the Arcade at Ninth and Dodge streets and chanced to get into the room occupied by four Mexicans. Under the bed he noticed a large amount of clothing, jewelry and other valuables. He woke the sleeping men and placed them under arrest after seizing the stolen property which was identified as part of that stolen from The Fair. The police are of the belief that after the four men arrested left the store it was entered by the thieves and much more plunder taken. The names of the four men arrested are, Francisco Lillo, Peter Rosella, Emmanuel Manstaco and Albert Dawson.

Absorption Process Makes Faces Young

(From The Home Maker.)

Success has at last come to scientists who for years have sought some method of removing the outer, facial skin in cases of unsightly complexions, which would be both painless and noninjurious. The new process is so simple, so inexpensive, the wonder is no one had discovered it long ago.

It has been simply demonstrated that common mercuric wax (buy an ounce at any drug store) entirely removes, by gentle absorption, the withered, lifeless cuticle, showing the youthful, rosy skin beneath. The wax is applied at night, like cold cream, and washed off in the morning. The absorption also cleanses clogged pores, increasing the skin's breathing capacity and capillary circulation, preserving tone, color and natural beauty of the new skin.—Adv.

Three Priests Are Nominated by the Catholic Consulters

The six consulters of the Catholic diocese of Omaha yesterday nominated three priests whose names will be presented to the six bishops of the province for the selection of bishop of the new diocese of Kearney. It is probable that the bishops will choose one of these names and forward it to Rome for the consideration of the pope, but it is their privilege to select another.

The date for the meeting of the bishops is not set; it may be in two weeks or six weeks. However, it is expected that it will be late spring or early summer before the new diocese has a head. The names chosen are kept secret.

WORLD-HERALD SECURES BALANCE OF ITS LOT

Deeds have been filed for the transfer from George T. Mills to the McCaughey investment company, thence to the World-Herald, of the building now occupied by Adam Morrell's barber shop, at 214 South Fifteenth street. The price is \$40,000.

The property has twenty-two feet frontage on Fifteenth and runs back the width of the lot—sixty-six feet. The World-Herald has already acquired the remainder of the lot, which includes the present quarters of the Burlington ticket office and Robertson Bros' cigar store, and expects to begin the construction of a new newspaper building as soon as present leases on the property expire, which will be at the end of this year.

FLOOD DAMAGE NOW FEARED

Low Temperatures Prevail in West, but Thaw is Expected.

TRAINS STILL BEHIND TIME

Storm that Rages During All of Wednesday Dies Out and Now Sun is Shining in Trans-Missouri Country.

Cold, calm and clear now obtains all over the west. Temperatures ranging from twenty degrees above to fifteen below, the coldest weather being reported from Wyoming. At Long Pine it was 19 below yesterday morning, that being the coldest point in the state.

At no time were the railroads idle, snow plows having been kept moving as long as the storm lasted. In Nebraska, Wyoming and Colorado, main lines are cleared of snow from end to end. On some of the branches the snow has not been cleared away, but it will be within the next twelve hours and by Friday morning, trains will all be back on schedule.

Michaelson Says County is Held Up by the Coal Dealers

Believing the county is being swindled by coal dealers who furnish fuel to poor families at the instance of the Board of County Commissioners, City Electrician Waldemar Michaelson, representing the Danish Aid society, wrote a letter to the county board yesterday afternoon requesting an investigation.

"You would be surprised to see the difference in the quality and the quantity of the coal the Danish Aid society provides for a family and the coal, supposed to be of equal amount and similar quality, sent out by the county. In my opinion the county is being defrauded and poor people are being imposed on," declared Mr. Michaelson.

"About half the coal delivered by the county was dirt and half the remainder was slate. It could not be burned. What was supposed to last this family of which I am speaking a month would, with cleanest economy, burn but a week."

RETREAT AT CREIGHTON IS TO START ON MONDAY

The students of the Creighton university departments of Arts will begin their annual retreat on Monday, March 25. The retreat will continue for three days during which time classes will be suspended and lectures on religion be delivered in the chapel of the college. Father Conroy of St. Louis will conduct the services. During the retreat the students give their thoughts exclusively to religious topics and observe a strict silence. The non-Catholics students are not obliged to attend school during these three days, but are invited.

JURY PROBES INTO PAVING

Makes Trip Over the City and Tears Up Certain Spots. WILL GO TO FLORENCE ALSO

Selects Pavement Where Complaint Has Been Made that the Base or Surface is Not Up to the Standard.

Sections of paving laid by M. Ford, Hugh Murphy and Charles E. Fanning in several sections of Omaha, were dug up by employes of City Engineer George W. Craig yesterday and inspected by the Douglas county grand jury.

Under instruction of the grand jury Craig had the pavement dug up at points designated by the investigating body. The inspectors in automobiles toured the city and made close examination of the removed sections and the crevices from which they were removed.

Today the grand jury will make a similar investigation in Florence.

Among the points at which paving was inspected yesterday are one on Twenty-fifth street between Leavenworth and Mason streets, the neighborhood from which a chunk of pavement anonymously was sent to the grand jury two weeks ago, and one on Manderson street.

The Manderson street pavement has been mentioned in connection with some of the exploits of former Councilman Charles M. Davis, who is said to have taken money from property holders in consideration of promises to have their paving assessments reduced or canceled.
